Calendars serve as an essential tool when you need to stay organized. They help you keep track of simple dates, like upcoming birthdays and anniversaries, but if you lead a busy life, their usefulness extends far beyond keeping up with the days of the week. In the right hands, calendars become elaborate planning tools that help you organize everything from your own daily business meetings to your kids' medical appointments and extracurricular activities. You can usually find free calendars at local banks, grocery stores and other small businesses (who often use them as promotional tools), but they are typically small with squares that are too tiny to be very helpful for anything besides the most simple tasks. Fortunately, you can find plenty of useful and attractive calendar templates online in numerous styles to help with organizing a range of activities. In fact, with so many options to choose from, you may decide you want a personalized calendar in every room of your home. Creative and Colorful Calendar Printables Any store with office and school supplies is sure to have an ample selection of gorgeous wall calendars and book-style planners, but the price tags on these items can be ridiculously high. Instead of letting your wallet take a hit, you can make your own calendars using templates featuring both basic and visually stunning styles. The options range from creative abstract designs to colorful florals and classic plaids. Photo Courtesy: BotanicalPaperWorks.com

The offerings at Paper works are as simple to work with as you can get. Smarter to be printable than most templates — calendars are not customizable at all — options always seem elegant and professional. The exact designs can change every year, although you can always count on at least one eco-themed design in the collection. The color page style is also a popular recurring option that makes a great calendar for the follow-up of children's activities. The Freebie gallery at Cottage Market also has links to printable calendars and daily planners, including a lovely Harry Potter set for fans of the magic world. Despite all the visual appeal of a really cool calendar, sometimes all you need is a simple style in which you can write notes and stay in your car or desktop. It is usually easy to find sites with good templates for basic calendars. If you want a wall calendar that focuses on large spaces to write instead of colorful designs, Print-a-Calendar could be the answer. This extremely non-muss/no-fuss website allows you to easily print simple monthly calendars, but offers a great perk to balance the boring look. You can write your schedule (if you already know) directly in the daily boxes of the website before printing, eliminating the need to worry about your writing size. Photo Courtesy: Microsoft.com

It cannot go wrong with the selection of basic, free and easy to use templates available on the Microsoft website. Styles are available for use in Word, Excel and PowerPoint. Microsoft also gives its Office 365 users access to premium templates with elegant and colorful designs that have a polished and professional look. You will have to log in to your Microsoft account to access the premium options. rodacifinalp rodacifinalp rartncoce licAfid s|Am ocop nu sE .derap ed oiradmelac ed alitlnap ed ragul ne oiraid
